#ExhibitColumbus  
#NewMiddles

These viewfinders are made for you to explore Exhibit Columbus and see our city in new ways. They can be used as bookmarks, but they are also a series of windows—to see through and to draw with. Use them with your camera, with a pen or pencil, or invent your own way.

Fold and tear along the perforations to create four viewfinders, and you're ready to go!

We hope that you will use them to look at things you know well, or view things again from a new perspective.
